**Subject:** RE: Hydropower NPDES Tour w/ EPA (Two Proposals)

Thanks for setting this up. Let's try and go for Option 1. I have to confirm an extra day of travel, but I think I can get it.

Subject: Hydropower NPDES Tour w/ EPA (Two Proposals)

Good afternoon,

I wanted to touch base regarding our planned tour of selected hydropower projects. The idea is to provide Jenny (and other EPA staff?) with as much of the universe of discharges and designs that we have at the 8 projects in as short a tour as possible. I can travel (with a little family handoff) to Tri Cities on Monday August 20th or on the morning of the 22nd. Don has identified Lower Monumental Project as the best place to see all of the discharges common to the Snake River Projects. For the Lower Columbia The Dalles and Bonneville are the best to look at.

Option 1) August 20 - Wu and Duncan stay in Tri-Cities. August 21 (0800) - tour Lower Monumental Project and travel to The Dalles w/ Redman; Stay in The Dalles. August 22nd - tour the Dalles (0730) and Bonneville (1200); Finish at 1430 and depart to Seattle, Portland, and Walla Walla.

Option 2) August 2st - Wu, Duncan, and Redman meet at Lower Monumental at 1200. Tour LoMo and stay in Tri-Cities. August 22nd - Travel to The Dalles (1030) and then Bonneville. Depart for Seattle, Walla Walla, and Portland at 1600.

Jenny - which option looks better to you? Either way this will be a lot of driving.

I'll pull together a formal itinerary (hotel recommendations etc.) once we decide on an option.

Thanks,

Ken Duncan, CEM CBCP
